Terms and Conditions of Acceptance:

Sport fishing is exactly that, a sport and those who practice it should be physically fit. Sport fishing is a hobby and, as you know and accept, it may happen that no fish are caught; no claim for reimbursement or reduction in price can be made if no catch, or no catch of an expected species is made, or the fish is too strong for the participant.

All participants should respect the safety regulations on board.

In the rare event of inclement weather, the skipper can cancel the booked trip prior to departure and full amount paid will be reimbursed. For safety reasons, the skipper may modify the itinerary from offshore to inshore for the same duration with no reduction in the price paid. If, during the trip, the weather deteriorates to such an extent that perfect security cannot be guaranteed, the skipper can shorten the trip and decide to seek safe harbour in a sheltered place.

Moroccan law prohibits the sale of fish caught; on this particular trip it is definitely NO KILL 'Catch & Release' in August & September if the fish is judged to be still healthy.

In the event there are several participants on board, a draw will be held before leaving port as to who will fish first.

Each participant is responsible for the fishing gear provided and recourse to the crew members in the event of difficulty is recommended. Any participant may bring his or her own tackle with no reduction in the price of the trip.
